What folly it is for these mammon-worshipping newspapers to be indulging the expression of fears that OEANT will profit by the injuries they indict upon the Democratic party, which, and which alone, can own members. Their persistent denunciation of everybody who takes the position of honesty and wis- Even to the commissioners who meet to day dom upon the currency-question-of common sense and common humanity to the great body of the people-the position of opposing forced contraction and premature resumption because that would plunge the country into ruin-we repeat, their denunciation of such men and their opposition to the Democrats of Ohio and Pennsylvania have but helped to advance the prospects of Grantism, which the Tribune so bitterly depounces. These mammon-worshippers who have denounced as dishonest the sensible men who desire to save the country from another panic worse than any we have had are guilty not only of folly, but falsehood. The money we have is not dishonest, and questions brought up concerning the time of resumption and the pekcy of in his written opinion, said: contraction for the purpose of resumption do not involve the question of the benesty of anybody. To abuse the men who oppose resumption now as dishonest is both a folly and an outrage. It shows the impudence Legislature did not intend any investigation and injustice of the money-power. In vain do the satellites of mammon in

They cannot estop that result, and plainly that is to strengthen GRANT, who has gone over himself to the money-power of election with more force than to courts of and declared himself to be determined to justice. prevent the repeal of the resumption act, and to prevent "inflation," which, by the by, nobody wants. GRANT is the representative of the money power, and everything that such papers as the New York World. and Tribune, and Herald, and Times-all advocates of mammon-may do to break down the only power in the country that can resist GRANT but adds to GRANT's prospects for a third term. It is unquestionably true that President

GRANT has been in the most intimate intercourse with the money-ring; and his declarations the past summer showed that he had fallen completely into the views of the ring, and was determined to act upon the policy they desired him to pursue. Last spring the Administration organ at Washington in us a very different view of his policy. Very probably he will assume that the return of not that contraction? The banks thus plainly have more money than they can A Proposit to Take Care of Contribusafely use, and they return it to the custody of the Government.

In this way property is shrinking in value, and by de time the maper morey, from its scarcity, is made equal to gold, the reduction will have ruined thousands.

General GRANT goes for bringing things to well represented at the exposition in Philathis point-a point at which the money delphia next year. Impressed with the power commands the situation. Behold your work, gentlemen !

The Senators.

We know nothing as to the merits of the judges of election at the First precinct in Jefferson Ward. The vote there in 1874 was 394 for Ketter and 117 for STARKE. The vote on Tuesday was 391 fer Johnson and 13 for Knight. The gain, even if there was frond, (which we do not by any means intend to say was the case,) was less than the majority of our lowest candidate in the district. We state, however, for ever may be the result as to the parties charged with these violations of the res avowed at Eric and Commbus, the law, the contest (if there is to be one) will triumph is that of the present Administra- go before the Virginia Senate. There is no tion, and not of a sound currency or a genu- count, either Federal or State, which has jurisdiction in the case of a contested election for members of either branch of the General Assembly, each body being unther the Constitution the sole judge of the election and qualifications of its judges of election are binding upon everybody else than the members of those bodies. the power is not expressly given by law to can vass the vote. If they had the power to do so, however, and to regard large majorities as evidence of fraud, they would surely be called upon to investigate, and, if necessary to the puriscation of the ballot-box, to throw out, the six hundred and seventy-seven negro mejority in Jackson Ward, to say nothing of the vote cast by negroes in other wards. To a fair election no Conservative would object. We should rejoice to have this contest decided by the men who are entitled to decide it.

THE POWERS OF JUDGES OF ELECTIONS .-In the case of the contested election for Mayor of this city Judge Guidon, in 1870,

"The main question thus far presented in this contest \* \* is whether this court in the matter of contest of election can go beto ascertain the candidate for whom alleged llegal voters cast their votes."

There are to be two or more tracks, and it is to be completed from the New York City Hall to Fifty-ninth street in two years.

We are indebted to Senator Johnston, of Virginia, for the Report of the Select Committee on Transportation Routes to the Seaboard and the evidence taken before the

Richmond, too, has triumphed over the orklition against the regular Conservative omination. This is in accordance with the wishes of all good men who had at heart the wexare of the party. Whatever objections may have been plausibly urged against Gener ral Johnson, be was the regular caudidate, regularly nominated, and the bolt against him deserved the same defeat which was inficted on the similar mutiny here. We must keep the lines drawn straight and deep, and no man's mere personal objection against any nominee should excuse the refusal to support the ticket. Virginia can never lose so much by the accidental and occasional selection of unfit men to public office as it can by the disintegration and destruction of that great party to which her people are indebted for their salvation from the fate of barbarism and bankruptcy which has been inflicted on so many other once prosperous Commonwealths .- Petersburg Index. 10 11116
